SUMMARY

Software Engineer with 2 years of experience building and maintaining full-stack web applications using React, Laravel, and .NET. Experienced in migrating legacy systems to modern architectures, and debugging production issues. Comfortable working across frontend, backend, and deployment workflows using Docker.

EXPERIENCE

Work/Industry – Sprobe Inc. – Fullstack Engineer - July 2024 - Present

Legacy HR Web Application

- Maintained and enhanced a Human Resources web application using ReactJS, PHP, and MySQL
- Implemented new features and resolved production issues to support ongoing operations

Modern HR Web Application System

- Developed features for a modern HR platform using ReactJS, MUI, and Laravel 10
- Migrated legacy modules to a new architecture, improving maintainability and system performance
- Wrote automated tests using Selenium and PHPUnit to ensure system reliability

Japanese Invoice Management System

- Maintained a .NET MVC application with Keycloak-based SSO authentication
- Diagnosed and resolved application and authentication issues using C#, PostgreSQL, and Docker

Japanese SaaS Marketing Web Application

- Implemented feature enhancements and bug fixes using ReactJS and Laravel 10
- Assisted in deployment workflows using Docker and SSH in staging environment

Japanese Employment Platform

- Contributed to a NextJS and NodeJS-based platform by implementing features and resolving issues
- Developed Excel-based form templates converted into HTML components

Intern – Sprobe Inc. – Fullstack Engineer - February 2024 – May 2024

Task Management Platform

- Developed a Kanban-style task management application using ReactJS and Laravel
- Collaborated with team using GitLab for version control

University – Aug 2020 – June 2024

Mobile Game – BisdaKids

- Developed a 2D educational mobile game using Godot and GDScript to promote Cebuano language learning

Admin Web Application – BisdaKids

- Built an admin dashboard using ReactJS and Supabase to manage users and game data

EDUCATION

College/University – Bachelor of Science in Information Technology (BSIT)

University of Cebu Main Campus

2020 – 2024
